Author: Brian D. Hill

The Rockingham County Government **Board of Commissioners** is going to be debating tonight about the United Nations Agenda 21 Plan and their false-environmental fraud that the United Nations groups have been pushing to take away sovereignty, freedom, liberty, and our small towns and turn them into wastelands.

The NAFTA super highway is part of this plan of **not having exit ramps on big highways to little towns** forcing many town governments to abandon their local towns and move elsewhere, creating literal ghost towns out west. Even when I went out west two years ago in 2010, I went through parts of New Mexico and each small town hardly had any businesses so I could tell the economy in small towns was being imploded by design. Even when I went to Richmond Virginia some areas looked terrible economy-wise and even saw some homeless people which I see everywhere anymore, even took some photos but some didn't like me taking pictures of them and I can see why, because it's embarrassing to have a good hard working job and then all of the sudden your out in the streets after losing your job and not being able to get another one.

The USWGO Founder believes that tonight the Rockingham County board of commissioners will be debating about the Agenda 21 plan that was brought to their attention to see if they think it will be a feasible idea of my request to block Agenda 21 and even lobby the state of North Carolina to pass onto their state Constitution to block Agenda 21 from ever becoming law or enforced within the entire state.

Around early this morning the USWGO Founder has **sent a fax** to Pamela M. McLain, MMC, NCCCC, the Clerk to the Board and has

confirmed with me over telephone that she made copies of the fax I had sent the county Government to all of the board of commissioner members as I had requested. The members that will likely debate all this tonight will be T. Craig Travis, W. Thomas Flynt, Harold A. Bass, SR., James E. Kallam (The vice chairman), and W. Keith Mabe the chairman of the board of commissioners.

The fax has been publicized and archived on the [USWGO official Scribd account](#) and will be available to those on public record. Only private home addresses and phone numbers are redacted for security purposes. Public Email Addresses are kept as USWGO publicly gives out their email but in a way that keeps spam bots from harvesting their email. USWGO is keeping their political actions public knowledge as what Jim Tucker has stated on the documentary Endgame: Blueprint for Global Enslavement, and I quote "The reason they want secrecy is because they're doing evil. Evil is done under the cloak of darkness, good works are done in the sunshine."

UN's Agenda 21 is a nightmare that will lead to many small towns, counties, and cities to be destroyed and create the super cities (or as Alex Jones says in his Endgame film, the mega cities) that will have Big Brother surveillance, total police state thugs that will abuse people physically, sexually, mentally, and in many cases kill those deemed as a threat to the state. UN Agenda 21 will turn most of American residential, businesses, and communities back into the wilderness and force many people under the [Housing Authority to relocate families under dictatorial decree during martial law](#), and force people to take drug tests and live under a Big Brother camera installed apartments in the super cities. Already two years ago, a South Carolina politician named Lt. Gov. Andre Bauer had stated on the record that people on Government welfare are the same as feeding stray animals, that they are breeding out of control, and is in favor of mandatory drug testing.

(Fox News) South Carolina Lt. Gov. Andre Bauer: "My grandmother was not a highly educated woman, **but she told me as a small child to quit feeding stray animals. You know why? Because they breed. You're facilitating the problem if you give an animal or a person ample food supply. ...**

"They will reproduce," Bauer said, "especially ones that don't think too much further than that. And so what you've

got to do is you've got to curtail that type of behavior. They don't know any better."

"Bauer has called for welfare recipients to receive mandatory drug tests and to attend parent-teacher conferences if they have children in school. Parents whose children benefit from subsidized school lunches should stop receiving [government assistance](#) if they fail to attend such meetings, he says."

The Bilderberg elite would love to abolish Social Security money that people and their families had paid into all their life and just waste it away on war and illegal Mexican immigrants, then call the disabled and elderly American people stray animals taking table scraps from Government welfare. In fact it was members of the elite that wanted to use food as a way to wipe out the poor.

No matter how you look at it Agenda 21 is the death of America, it's sovereignty, it's Constitution, it's civil liberties, and human rights. As America is further becoming a police state only giving welfare to the super rich mega banks under Rothschild and other prominent elite families control.

The facts are simple, global warming is caused by the sun, Carbon dioxide is natural that gets converted into oxygen by small plants and trees, Climategate had been exposed years ago, and that the UN's Agenda 21 was never to save the environment but is a way to control and depopulate humanity.

In fact the **Gaston County Commissioners** have gone on record to block the Agenda 21 plan. USWGO will report what the county commissioners board decides under a vote my the majority of the board.
